VOLUME CONTENTS

1997 NUMBER 1

CONTENTS

	III	Notice to Subscribers
B. I. Iof'yev	1	Structure of emergency automatic control in electrical power systems
K. S. Dmitriyev and **Ya. Ye. Gonik**	17	A new method for melting ice on overhead transmission lines
V. A. Kuznetsov and **A. I. Fedotov**	29	Analysis of electromagnetic transients in a system consisting of a synchronous generator and a rectifier load
Yu. A. Moshchinskii and **N. A. Bessmertnykh**	39	Mathematical model of a single-phase induction motor with a startup resistance
V. I. Tarasov	51	Minimization methods for solving steady-state condition equations for an electrical power system
A. A. Ragozin and **A. L. Pinegin**	63	Operation of asynchronized synchronous wind-power generators in parallel with an electrical network
K. P. Kadomskaya	73	Standardization of insulation for high-voltage underground power lines
S. I. Kutuzov	83	Improvement in the voltage waveform of three-phase synchronous generators used in single-phase operating conditions
Ya. B. Danilevich and **A. A. Karymov**	91	Evaluation of the life of a turbogenerator shaft
V. A. Stroyev, V. A. Shtrobel', S. Yu. Syromyatnikov, R. S. Beim, O. P. Malik and **D. C. Hancock**	99	Investigation of the effectiveness of a digital excitation regulator using a power system physical model
A. A. Potrebich	109	Load simulation for calculation of energy loss in power systems
Yu. G. Grigor'yev	121	Bioelectromagnetic compatibility (problems of protecting people against electromagnetic radiation)
M. S. Metsik and **G. K. Novikov**	131	Electret effect in mica crystals and papers
A. B. Prishchepenko, D. V. Tret'yakov and **M. V. Shchelkachev**	141	Energy balance of a piezoelectric frequency generator
	i	List of papers not translated from *Elektrichestvo* Nos 1–3, 1997

CONTENTS

	III	Notice to Subscribers
O. A. Sukhanov, V. A. Timofeyev and **Sh. S. Chandra**	1	Application of functional (cybernetic) modelling principles to solving problems of design and control of electrical power systems
R. A. Voitovich and **K. P. Kadomskaya**	11	Influence of the design parameters of high-voltage underwater power cables on the electromagnetic field intensity in an aqueous medium
V. I. Popov	23	Investigation of a three-phase asynchronous single-machine reversible frequency converter
V. I. Tsukanov	39	Calculation of electromagnetic forces in stepper motors
M. Yevtich and **A. M. Andreyev**	53	Effect of an inorganic filler and the crosslinking conditions on the treeing resistance of polyethylene cable insulation
A. F. D'yakov, I. I. Levchenko, O. A. Nikitin, O. A. Anoshin, I. P. Kuzhekin and **B. K. Maksimov**	59	Assessment of the possible harmful effect of electromagnetic fields on the human body
A. A. Ragozin	73	Conditions of static stability of long-distance power transmission lines with controlled shunt reactors
Ye. M. Lopukhina and **A. B. Zakharenko**	81	Mathematical modelling of induction motors with multilayered rotors by the transfer function method
Yu. V. Smirnov	89	Analytical expressions for the torque-speed characteristics of small induction motors
M. V. Belov and **L. A. Sinitskii**	95	Power relationships in reactive elements when analysing the element equations
G. Ye Levshin	103	Demagnetizing effect of a dispersed medium
S. I. Malafeyev	111	Automatic control system for a thyristor-controlled shunt compensator
A. V. Ivanov-Smolenskii, V. A. Kuznetsov, M. A. Avanesov, V. I. Goncharov, N. A. Serikhin, V. G. Fisenko and **S. V. Shirinskii**	123	Electromagnetic analysis of hydro- and turbogenerators
S. Ye. Ryvkin and **D. B. Izosimov**	133	Comparison of pulse-width modulation algorithms for three-phase voltage inverters
S. A. Shcherbakov and **B. L. Aliyevskii**	145	Improving the operational reliability of transistors and widening their area of application
I. V. Belousenko, A. P. Kovalev, V. B. Sovpel' and **V. I. Yarmolenko**	155	"Delta–star" transformation for calculating the reliability of complex systems
	i	List of papers not translated from *Elektrichestvo* Nos 4–6, 1997

1997 NUMBER 3

CONTENTS

	III	Notice to Subscribers
V. T. Fedin and **A. M. Chernetskii**	1	Control of post-emergency conditions of electrical power transmission lines with variable phase shift
B. I. Sazhin, V. A. Kaniskin, E. M. Kostenko, Ye. V. Levandovskaya and **A. I. Tadzhibayev**	11	A rapid method for determining the service life of polymer-insulated cables
V. Ya. Bespalov, I. I. Aliyev and **Yu. B. Klokov**	19	Asynchronous generator with guaranteed self-excitation
A. B. Prishchepenko and **M. V. Shchelkachev**	25	Operation of an implosive magnetic explosion generator with a capacitive load
M. Yu. Shuvalov, M. A. Mavrin, V. L. Ovsiyenko and **A. V. Romashkin**	33	Video microscopy of electrical and water trees
B. G. Men'shov, M. S. Yershov and **A. V. Yegorov**	47	An improved power supply and distribution system for continuous process plants
B. B. Bochkovskii. I. B. Rogozhin, N. I. Rosanov and **L. V. Timashova**	57	Recording of lightning strike locations and determination of lightning current amplitudes
M. G. Bychkov	69	Elements of switched reluctance drive theory
A. N. Tarasov	87	Failure processes in thyristor-based frequency converters with an intermediate d.c. stage
V. I. Kochkin and **Yu. G. Shakaryan**	109	Operating conditions of controlled power transmission lines
G. S. Kuchinskii, L. T. Vekhoreva and **O. V. Shilin**	123	Principles of designing high-voltage high-capacity forming lines for generating nanosecond and microsecond pulses with a near-rectangular waveform
I. I. Levchenko, A. A. Alliluyev and **A. S. Zasypkin**	135	Relay protection of rectifier installations for ice-melting with a direct current
M. K. Kazakov	143	Using the full current law in discrete form for measuring high direct currents
	i	List of papers not translated from *Elektrichestvo* Nos 7–9, 1997

CONTENTS

	III	Notice to Subscribers
Yu. V. Skachkov, K. S. Lyapidov and **Yu. Ye. Yurlov**	1	Selection of structures for autonomous electrical power systems using a fault immunity index during automated design
V. I. Popov, L. N. Makarov and **T. A. Akhunov**	13	Differential leakage permeance of a squirrel-cage rotor with alternating slots
A. I. Fedotov	19	Determination of the commutation inductive reactance of synchronous electrical machines with a harmonic excitation system
B. L. Aliyevskii and **S. R. Mizyurin**	29	Charging processes of an electromechanical energy storage device operating in an autonomous d.c. generation system
A. V. Bondarenko and **V. V. Bondarenko**	43	Synthesis of non-linear dynamic circuits in the modelling of complex engineering and biological systems
V. A. Skopintsev and **Yu. V. Moroshkin**	53	Analysis and forecasting of fault rates in electrical power systems
N. I. Sokolov and **R. N. Sokolova**	67	Some features of wave transmission lines
I. I. Levchenko, A. A. Alliluyev and **A. S. Zasypkin**	77	Methods of switching-off a faulty rectifier unit in an ice-deposit melting installation
Ya. B. Danilevich and **Yu. F. Antonov**	85	A topological generator with a magnetoresistive bismuth commutator
M. S. Mikhailov and **E. I. Dubovoi**	95	Possibility of estimating the coordinates of a lightning discharge by single-point measurement of its electromagnetic radiation
M. G. Bychkov, A. V. Kisel'nikova and **V. A. Semenchuk**	111	Experimental investigation of noise and vibration in a switched reluctance drive
Yu. A. Moshchinskii and **M. M. Kiseleva**	121	Determination of the capacitor capacitance of a single-phase induction motor
M. G. Vitkov and **A. A. Vitkova**	129	Laplace transform domain models of dependent sources with non-zero initial conditions
	i	List of papers not translated from *Elektrichestvo* Nos 10–12, 1997
	iii	Volume Contents/Author Index for the 1997 Volume
